

♦ ABOUT ME

Frontend Developer with 5+ years of experience building modern, responsive, and user-focused web applications. Skilled in React.js, Next.js, WordPress, UI development, and design-to-code implementation. Experienced in building reusable components, scalable layouts, interactive animations (GSAP, Framer Motion, Lottie), and responsive web interfaces using Tailwind CSS, shadcn/ui, and Sanity CMS, with a focus on web accessibility (WCAG). Comfortable working with Figma and Photoshop for pixel-perfect, cross-browser-compatible interfaces. Currently exploring Generative AI tools, prompt engineering, and AI-assisted development workflows.

♦ TECHNICAL SKILLS

Languages	HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript
Frameworks & Libraries	React.js, Next.js — responsive, pixel-perfect, component-based UI development
Frontend Dev	UI Development, Reusable Components, Responsive Implementation, WCAG Accessibility
WordPress Development	Custom Theme Development, ACF Pro (Flexible Content), WPBakery, Elementor
Animation Libraries	GSAP, Framer Motion, Lottie Animations, Animate.css
CSS Frameworks	Tailwind CSS, Bootstrap, shadcn/ui
CMS & Platforms	Sanity CMS (Headless Integration)
Design & UI Tools	Figma, Adobe Photoshop, Canva
AI Tools	ChatGPT, Claude, Cursor, Windsurf, Perplexity AI (Workflows, Debugging, Code Assistance)
Version Control & Ops	Git, GitHub, Responsive Design, WCAG, Core Web Vitals, Page Speed Optimization, Cross-browser Testing

♦ WORK EXPERIENCE

Frontend Developer | Techvoot June 2026 – Present

- Develop responsive, modern, and user-friendly web interfaces using Next.js, Tailwind CSS, and shadcn/ui.
- Spearheaded the frontend redesign and modernization of the company website (techvoot.com), optimizing Core Web Vitals, UI responsiveness, and overall page speed.
- Designed and built frontend interfaces for company digital products, including SplitPaisha (splitpaisha.techvoot.com) on Next.js.
- Redesigned Odoo index layouts and website pages to enhance usability, page performance, accessibility, and visual consistency.
- Created and optimized HTML files and Laravel Blade templates for product pages and digital interfaces.
- Converted Figma designs into pixel-perfect, responsive, and cross-browser compatible web pages.

Frontend Developer | Codage Habitation July 2022 – June 2026

- Led frontend development across 20+ client websites using Next.js, React.js, Sanity CMS, and WordPress, building reusable components and scalable UI systems for production-ready applications.
- Developed dynamic, headless web applications integrating Next.js with Sanity CMS for flexible structured content management and optimal page speed performance.
- Implemented interactive animations and transitions using GSAP, Framer Motion, and Lottie animations to elevate user engagement.
- Built and customized WordPress websites using ACF Flexible Content, WPBakery, and Elementor based on CMS-driven workflows.
- Converted Figma and PSD designs into pixel-perfect, WCAG-compliant, and cross-browser-compatible frontend interfaces.
- Collaborated with UI/UX designers and engineers to implement design systems with consistent spacing, accurate typography, and well-structured components.
- Improved website performance and SEO through image optimization, lazy loading, and frontend performance enhancements.
- Mentored junior developers on reusable component practices, frontend workflows, and code quality standards.
- Authored technical blogs for SWHabitation covering modern UI implementation and web performance optimization.

Jr. Web Designer | Moveoapps Nov 2019 – June 2022

- Built responsive, standards-compliant websites using HTML5, CSS3, SCSS, and JavaScript across multiple client projects.
- Developed custom WordPress themes using ACF and WPBakery based on UI designs and business requirements.
- Converted Figma and Photoshop (PSD) files into clean, maintainable, and responsive frontend layouts with CSS animations.
- Contributed to the MoveoApps company website development and collaborated via Git in agile team workflows.

- Mastered frontend development fundamentals including HTML5, CSS3, SCSS, responsive web design, and UI architecture.
- Gained practical exposure to Photoshop-to-code and Figma-to-code conversion workflows for responsive web interfaces.

♦ SELECTED PROJECTS

React.js / Next.js / Sanity CMS Projects

[SplitPaisa \(splitpaisa.techvoot.com\)](#) | [Techvoot](#) | [Codage Habitation](#) | [SWHabitation](#) | [Volz](#)

Key Contributions: Frontend UI development, Next.js & Sanity CMS integration, animations (Framer Motion, GSAP), reusable component architecture with shadcn/ui and Tailwind CSS, Figma-to-code conversion, WCAG standards, and page speed optimization.

WordPress Projects (ACF, WPBakery & Elementor)

[MPCP](#) | [MoveoApps](#) | [Seanc Project](#) | [GTA Project](#) | [MKPLC](#) | [Strickland Attorneys](#) | [VA Law Office](#)

Key Contributions: Custom theme development, ACF Flexible Content implementation, WPBakery and Elementor customization, responsive styling enhancements, and page speed performance optimization.

♦ CERTIFICATIONS

Web Design & Responsive Frontend Development — Agile Infoways

HTML5, CSS3, SCSS, responsive web design, UI development fundamentals, and modern frontend styling.

Generative AI & Advanced Prompt Engineering — upGrad

Generative AI fundamentals, prompt design techniques, AI-assisted workflows, and practical applications.

♦ EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering

Gujarat Technological University (GTU) | CGPA: 7.71

♦ PROFESSIONAL GROWTH

Currently exploring Generative AI tools, prompt engineering, and AI-assisted development workflows.

Hiteshri Chavda | Frontend Developer | Ahmedabad, Gujarat, India
